

HIGH-QUALITY LOCK CYLINDERS

Dear customer,

since November 2017 we supply **new lock cylinders** for **pass door, mandoor and 2-wing door.**

The newly delivered cylinders have a **safety class III**, are **made from high-quality materials with nickelled surface** and are **resistant against drilling, lockpicking and bumping.**

Unique codes of lock cylinder keys provide **protection against easy duplication.**

These security cylinders with **certificate RC III** are in accordance with the demands of major part of insurance companies* for the compensation in case of burglary.

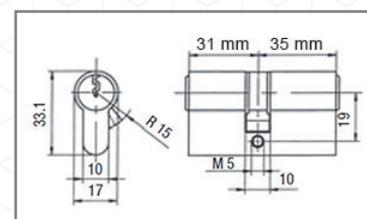

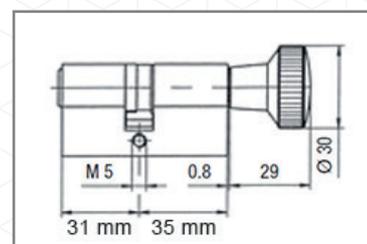

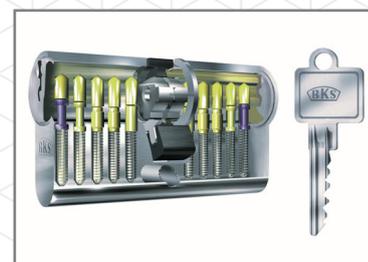

*Please always consult the insurance payout with Your insurance company.
