

NEW ADJUSTABLE TOP ROLLER

Dear customer,

we would like to inform you about new adjustable top roller for residential doors TOORS GUARDY with torsion springs in rear (LHR-C) and also in front (LHF-C). This roller is fully adjustable in vertical and also horizontal position and allow fine tuning. New roller is supplied from the same kind of material as other rollers on doors to reduce the noise of moving door.

In case of spare part order this roller has article number T09-040-70-0211.
The roller is the same for right and left side of the doors.

You can find the updated installation manual for doors LHR-C (page 34, points 24.2 and 24.3 and page 35) and for doors LHF-C (page 34), manual version 1641.

If you have any questions about this Product Info, please contact the TOORS company.
