

DOUBLE SIDE HINGES AND DOUBLE END CAPS

Dear customer,

we have prepared for you the **new option*** ordering a **double side hinges**, double end caps and rollers with a long shaft in the configuration of garage and industrial doors.

This option has been supplied only for industrial doors wider than 5000mm as a standard.

Now you have the opportunity to order this solution for doors of all dimensions.

We recommend the completion of doors by these accessories in cases where it is necessary to minimize bending of the door leaf (the door exposed to the wind), or where are the doors with high frequency of opening.

Industrial doors INDY wider than 5000mm have this solution already included in the basic price.

* The calculation of the surcharge: number of sections x 15,50 EUR, brutto.
